Fish Creek Community Forest Trail System

This project was developed through the British Columbia Ministry of Forest's Community Forest Program. The Fish Creek Forest provides an opportunity for the people of Fort St. John to actively take part in the integrated management of a forest. There are three interpretive trails to help you become familiar with this area.

Anatomy Trail (Wheelchair Accessible)

500m in length
Forest Anatomy
Green Trail

Silviculture Trail

830m in length
Natural and Cultural History
Blue Trail

Multi-Purpose Trail

4,283m in length
Red Trail
