

FIRE INSPECTION POLICY
Council Policy No. 29/12

POLICY:

The City of Fort St. John Fire Department will inspect occupancies to ensure that existing fire protection measures provided are acceptable. When required, corrective measures will be taken to ensure there is an acceptable degree of fire safety provided within the premises. When a deficiency is identified, the owner or owner's representative will be given a time line to comply. A follow-up re-inspection will complete the process.
